Yusuf Arifta Biharjuna

Purwodadi, Grobogan Regency, Central Java, Indonesia | +62 89506073501 | yusufbiharjuna@gmail.com

I am a Software Developer specializing in Web and Mobile Development. I have hands-on experience in programming, network engineering, and graphic design, which allows me to approach problems from both technical and creative perspectives.

I am highly passionate about technology and committed to continuous learning and self-improvement. I enjoy exploring new tools, frameworks, and best practices to build efficient and scalable solutions.

Work Experience

Software Developer • e-Solution Indonesia

March 2024 ~ Now | Kota Semarang, Jawa Tengah, Indonesia

- Specialized in developing robust, scalable, and user-friendly software applications that deliver seamless digital experiences across multiple platforms.
- Experienced in building web, mobile, and cross-platform applications using modern technologies, frameworks, and development tools.
- Applied strong software engineering principles, clean architecture practices, and proven design patterns to create maintainable and efficient solutions.
- Focused on developing high-performance applications that align with both user requirements and business objectives.
- Skilled in designing, developing, testing, deploying, and maintaining full-stack software solutions in collaborative development environments.
- Continuously explored modern technologies and industry best practices to improve application quality, scalability, and development efficiency.

Freelance Journalist • PT. CVGEN SMART CONSULTANT

October 2022 ~ February 2023 | South East Sulawesi, Indonesia

- Experienced Freelance Journalist with a demonstrated history of working in the writing and editing industry.
- Skilled in conducting research, interviewing, and writing compelling content. Proven ability to deliver high□quality articles on a variety of topics. Collaborated with the CV-Gen website to provide informative and engaging content.

Graphic Designer • Mulyo Jaya Digital Printing

July 2022 ~ October 2022 | Purwodadi, Grobogan Regency, Central Java, Indonesia

- Creative Graphic Designer with experience in designing logos, banners, and stickers using CorelDRAW. Skilled
- in conceptualizing and creating visual designs that effectively communicate brand identity and messaging.
- Proven ability to collaborate with clients to understand their needs and deliver designs that exceed expectations.

Education

G2Academy

Web and Mobile Development • 2023 - 2023

Completed an intensive mini bootcamp focused on modern software engineering practices, covering the complete software development lifecycle from fundamental programming concepts to advanced full-stack application development. The program emphasized hands-on learning through real-world projects, collaborative development, and industry-standard workflows using modern technologies and frameworks.

SMK Negeri 2 Purwodadi

Computer and Network Engineering • 2020 - 2023

Implemented and maintained web server infrastructure, including server configuration, deployment, monitoring, maintenance, and performance optimization for web-based systems and applications. Designed, configured, and managed computer and Internet network infrastructures, including routing, connectivity, network security, troubleshooting, and overall network performance management to ensure stable and reliable operations. Developed responsive and user-friendly web applications using modern frontend and backend development technologies, focusing on scalable architecture, clean code practices, and efficient system integration.

Skills

- Web Development
- Mobile Development
- Network Engineering

Languages

- English - Intermediate
- Indonesian - Native or Bilingual
- Javanese - Native or Bilingual
